

LARGE PANEL SHUTTERING

WILLIAMSON CONSTRUCTION EQUIPMENT LIMITED

Are you planning to build a new Barn, Slurry Pit or Silage Clamp? Will it involve casting concrete structures?

Why not try **REDI - FORM**

Formwork is perhaps the easiest way in which to construct reinforced concrete walls in-situ. Using your own labour and our Formwork equipment, along with our own expertise - leads to a highly cost-effective and easy method of casting concrete.

- **PRE-ASSEMBLED** Formwork Delivered to Site
- **NO** Skilled Labour Required
- **FREE** Design and Advisory Service
- **FREE** Access to Technical Support
- Capable of Being **MOVED BY FARM HANDLER OR LOADER**
